

## PRACTICE WITH TURTLE GRAPHICS

CS 121

1. Draw an octagon with turtle graphics.
2. Draw a square with a blue border and orange interior.
3. Ask the user for a length. Then draw a square with sides of that length.
4. Ask the user for a number of sides  $n$ . Then draw a regular  $n$ -gon with that many sides.
5. Use turtle graphics to create your own work of art.
